KIA Conservation Strategy Follow-Up Meetings

Taloyoak

The Kitikmeot Inuit Association (KIA) is working on the development of a Conservation Strategy to guide future conservation and protection effort on the Kitikmeot Inuit-owned lands. A major part of this effort will be to meet with HTO's, community members, and traditional land users across our region to discuss potential areas for protection and their concerns about conservation issues.

In September, we consulted with Taloyoak community members on potential conservation areas and want to follow-up with those same individuals.

WHEN: Wednesday, November 26, 2025

WHERE: Taloyoak Community Hall

TIME: 1:00 – 5:00pm for those who came to the September meeting

6:00 – 8:30pm for the public

If you came to our meetings in September, we are trying to contact you to invite you to attend the afternoon meeting. If you do not hear from us, please contact your local Community Liaison Officer Jayko at 867.561.5206 or email him at JNeeveacheak@kitia.ca (Jayko is also available for anyone with general questions regarding the evening meeting).
