

Vice-President Economic Development

The Vice-President Economic Development is responsible for providing guidance and leadership on initiatives that promote the improved standard of living and economic well-being of Kitikmeot Beneficiaries. Among other things, these initiatives may be focused on human resource development and training, critical infrastructure, renewable and non-renewable resource development, and supporting Inuit-owned business. The Vice-President Economic Development may represent KIA on various external Boards, Committees or Trusts that have an economic development mandate, including, but not limited to: KC, NRC, and the (KIA) Community Economic Development Organization.
